G. Evaluation of Technical Parts of Bids

ITB 30.9

The weighting to be given for Rated Criteria (including technical and non-price factors) is: 50 %

The technical factors (and sub factors if any), which for purposes of this document carry the same meaning as Rated Criteria:

No	Rated Criterion	Description (Evidence strictly required – no narratives)	Score
1	Supply Reliability & Delivery Performance	Documented evidence of on-time, in-full delivery on comparable supply contracts over the last5 years At least two good completion certificates)	**15**
2	Manufacturing Capacity & Surge Capability	Independently verifiable evidence of monthly production capacity and ability to ramp up output Production capacity proven by certificate, similar product manufactured & production volume for the last 5 years and the manufacturer's authorization (if the bidder is not manufacturer). This concerns the major listed items	**15**
3	Quality Performance Beyond Minimum Compliance	independent test laboratory reports (Types test report for each major item) Valid ISO 9001 certificate and quality control procedures	**10**
4	Supply Chain & Logistics Risk Mitigation	Evidence of executed raw-material supply agreements, logistics contracts, or proof of prior deliveries to landlocked or comparable markets (e.g. Bills of Lading, freight contracts). Proof should be multiple freight forwarders contracts and framework agreements with alternative vendors for critical inputs.	**10**
